

Add Button to Course Menu

In this instance we will add a button to our course menu.

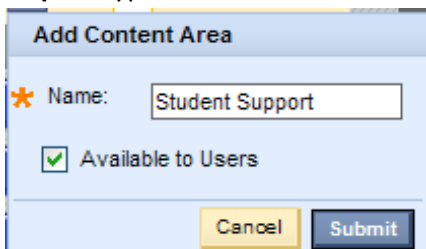

Step 1: Click the + button on the top of the menu.

Step 2: Select the specific area you want to add. In this case we will add the "Student Support" button. We need to select to Create Content Area.

Step 3: Type Button name. Check to make it available to students. Click Submit.

A screenshot of the "Add Content Area" dialog box. It has a title bar "Add Content Area". Below the title bar, there is a field labeled "Name:" with the text "Student Support" entered. Below that, there is a checkbox labeled "Available to Users" which is checked. At the bottom of the dialog box, there are two buttons: "Cancel" and "Submit".

We have now added the "Student Support" button. It is added to the bottom of the menu. To relocate it in your line up use the double headed arrows to the left of the button.
