

Add Course Banner

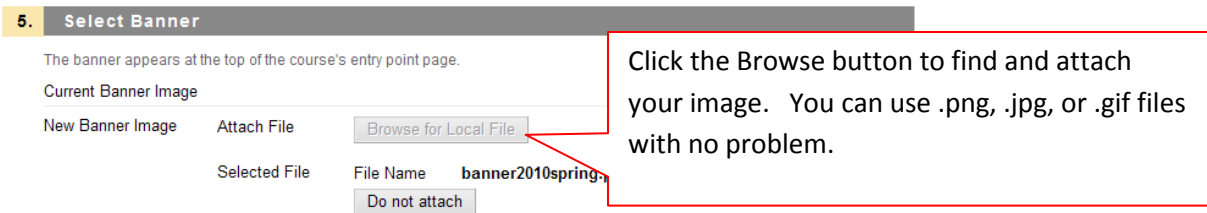

In this instance we will add a course banner to a blackboard course site.

Step 1: Search the internet or go to your book publisher and find images of your books to put into the course banner. After you have the image to place in the banner it would be best if you add text to the image stating "This course property of FTCC" to comply with FTCC Online Standards.

Step 2: In the Control Panel, select **Style** from the Customization category.

Step 3: Complete Area 5 Only.

Step 4: Go to Area 6 and Submit.

End Product:

Notice Property Statement
