

Repeated Test/Assignments Links in Grade Center Heading

Does your Grade Center heading look like this?

These links are just smart views that have been created to allow the instructor to view parts of the grade center instead of the whole thing. Smart views can be marked as a favorite and then they are added to the control panel menu. These can very easily be removed by the instructor.

- Click in the Control Panel on Grade Center > Full Grade Center
- Click the Manage drop down above Grade Center
- Choose Smart Views
- There will be a list of all smart Views (usually a few pages)
- All the way to the right of each item in the list is a star (in the category called "Add as Favorite") Click on the star to turn it white (off) or turn it green (on).
- Click OK at the bottom of the page.
