## **Assessment Booster Shot**

Do you need a quick overview of the role that WEAVEonline plays in our assessment process at FTCC? Would a quick "how-to" for accessing assessment information in WEAVEonline be beneficial? If so, join us for a hands-on mini-workshop where you will be actively involved in learning the mechanics and capabilities of WEAVEonline. The workshop will be held in a computer lab so class size is limited. You will need to confirm your attendance to Beverly Hall at least 24 hours prior to the date of the workshop. "Walk-in" attendees cannot be accommodated.

## **Maps To Credentials**

In January 2011, FTCC was awarded a grant from the Fund for the Improvement of PostSecondary Education (FIPSE). The major goal of this grant is to provide a map for Veteran and National Guard students to a degree, diploma, or certificate that begins with awarding credit for their military experience. The purpose of this workshop is to familiarize staff and faculty with the program, introduce some of the "Maps" we have and to gain support from our key stakeholders in marketing this program to our current Vet and National Guard students.

## **Serving Student Veterans: From Outreach through Job Placement**

Meg Krause, Associate Director of Military Programs, will present on the many projects ACE has embarked on, share the challenges identified by higher education institutions in serving this special population, and provide insight into campus and online activities that are emerging with success in increasing awareness, decreasing attrition, and contributing to the overall confidence and seamless transition for today's veteran and military communities through higher education. This is a Webinar and will be available online after the 27<sup>th</sup>. Those who wish to attend the interactive session on the 27<sup>th</sup> should contact Louanna Castleman.

## **Using Cameras in the Classroom: A Look at How Recording Technology can enhance the Classroom Experience**

Have you ever had a student miss a class and then ask if he or she "missed anything important?" Have you ever had to spend time going over your course expectations with a student because he or she did not come the first day of class? Have you ever had classes cancelled because of weather on a day when your students REALLY needed the information you had planned to give them? This workshop will discuss how to create video segments of lectures that can be loaded and used on Blackboard.
